

Seventy-fourth session  
Agenda item 48  
Effects of atomic radiation

## Resolution adopted by the General Assembly on 13 December 2019

[on the report of the Special Political and Decolonization Committee  
(Fourth Committee) (A/74/407)]

### 74/81. Effects of atomic radiation

*The General Assembly,*

*Recalling* its resolution 913 (X) of 3 December 1955, by which it established the United Nations Scientific Committee on the Effects of Atomic Radiation, and its subsequent resolutions on the subject, in which, inter alia, it requested the Scientific Committee to continue its work,

*Concerned* about the potentially harmful effects on present and future generations resulting from the levels of radiation to which humankind and the environment are exposed,

*Conscious* of the continuing need to examine and compile information about atomic and ionizing radiation and to analyse its effects on humankind and the environment, and conscious also of the increased volume, complexity and diversity of that information,

*Acknowledging* the concerns about the radiological consequences of nuclear accidents,

*Reaffirming* the desirability of the Scientific Committee continuing its work, and welcoming the increased commitment of States members of the Committee,

*Emphasizing* the vital need for sufficient, assured and predictable funding, as well as efficient management, of the work of the secretariat of the Scientific Committee to arrange the annual sessions and coordinate the development of documents based on scientific reviews of the sources of ionizing radiation and its effects on human health and the environment,

*Recognizing* the increasing importance of the scientific work of the Scientific Committee and the need to carry out unforeseen additional work, such as after the accident at the Fukushima Daiichi nuclear power station,

*Considering* that the high quality of the work and the scientific rigour of the Scientific Committee need to be maintained in the future,

*Recognizing* the importance of disseminating the findings of the Scientific Committee, in particular to the public, and widely publicizing scientific knowledge about atomic radiation, and recalling in that context principle 10 of the Rio Declaration on Environment and Development,<sup>1</sup>

*Noting* the need for the resources of the Scientific Committee to be sufficient, assured and predictable, and recognizing the importance of voluntary contributions to the general trust fund established by the Executive Director of the United Nations Environment Programme to support the work of the Committee,

*Acknowledging* the attendance of Algeria, Iran (Islamic Republic of), Norway and the United Arab Emirates as observers at the sixty-fifth and sixty-sixth sessions of the Scientific Committee,

*Bearing in mind* that the incorporation of new members will imply a proportional increase in operational costs for the Scientific Committee, including travel costs,

*Commending* the secretariat of the Scientific Committee for its ongoing efforts to ensure the sustainable and effective work of the Committee, and encouraging all States in a position to do so to provide support to the secretariat of the Committee,

*Recalling* the support expressed by the International Atomic Energy Agency and the World Health Organization for the Scientific Committee's work in producing the most reliable and comprehensive sources of scientific information about the levels and effects of ionizing radiation, without which safety guidance and safety standards could not be developed and maintained and priorities for research in the areas of sources and effects of ionizing radiation could not be determined,

*Noting* the commitment made by the United Nations Environment Programme to addressing the developments that resulted in the request by the Scientific Committee during its sixty-fifth session for an investigation or inspection into the process to recruit the Scientific Secretary to ensure that the successful candidate was selected on the basis of scientific qualifications and credibility and that the process was aligned with Article 101, paragraph 3, of the Charter of the United Nations,<sup>2</sup>

*Recognizing* that sufficient staffing of the secretariat is essential to support the work of the Scientific Committee,

1. *Commends* the United Nations Scientific Committee on the Effects of Atomic Radiation for the valuable contribution that it has been making since its inception to wider knowledge and understanding of the levels, effects and risks of exposure to ionizing radiation and for fulfilling its original mandate with scientific authority and independence of judgment;

2. *Reaffirms* the decision to maintain the present functions and independent role of the Scientific Committee;

3. *Re-emphasizes* the need for the Scientific Committee to hold regular sessions on an annual basis so that its report will be able to reflect the latest

---

<sup>1</sup> *Report of the United Nations Conference on Environment and Development, Rio de Janeiro, 3–14 June 1992*, vol. I, *Resolutions Adopted by the Conference* (United Nations publication, Sales No. E.93.I.8 and corrigendum), resolution 1, annex I.

<sup>2</sup> See *Official Records of the General Assembly, Seventy-fourth Session, Supplement No. 46 (A/74/46)*.

developments and findings in the field of ionizing radiation and thereby provide updated information for dissemination among all States;

4. *Notes with appreciation* the work of the Scientific Committee, takes note of the report on its sixty-sixth session,<sup>2</sup> including the report on the implementation of its long-term strategic directions, and encourages the Committee, over its coming sessions, to continue to work towards implementing strategies to support its long-term efforts to serve the scientific community, as well as wider audiences;

5. *Welcomes* the continuation of the ad hoc working group to assist the Scientific Committee in developing its future programme of work on the effects of radiation exposure and the biological mechanisms by which they occur;<sup>3</sup>

6. *Also welcomes* the establishment of an ad hoc working group on sources and exposure, following the experience of the ad hoc working group on effects and mechanisms;<sup>3</sup>

7. *Appreciates* the arrangements made by the Scientific Committee for activities to follow up on its 2013 evaluation of the levels and effects of radiation exposure due to the nuclear accident after the 2011 great east-Japan earthquake and tsunami, looks forward to the Committee's evaluation of the implications of the information published since the 2013 report, and encourages the secretariat of the Committee to disseminate the findings of the Committee's evaluation, in particular to the public;

8. *Welcomes* the two substantive scientific reports adopted by the Scientific Committee during its sixty-sixth session, on selected health effects and inference of risk due to radiation exposure and on lung cancer from exposure to radon,<sup>4</sup> and looks forward to the publication of the supporting scientific annexes thereto as their outcomes are relied upon by other international organizations;

9. *Looks forward* to the Scientific Committee's evaluations of biological mechanisms relevant for the inference of cancer risk after low-dose radiation exposure, and the assessments of human exposures to medical ionizing radiation and occupational ionizing radiation;

10. *Requests* the Scientific Committee to continue its work, including its important activities to increase knowledge of the levels, effects and risks of ionizing radiation from all sources, and to report thereon to the General Assembly at its seventy-fifth session;

11. *Supports* the intentions and plans of the Scientific Committee for conducting its programme of work of scientific review and assessment on behalf of the General Assembly, in particular its next global survey of public radiation exposure, its assessments of second primary cancer after radiotherapy and its epidemiological studies of radiation and cancer, to be conducted in close cooperation with other relevant organizations, and requests the Committee to submit plans for its ongoing and future programme of work to the Assembly at its seventy-fifth session;

12. *Welcomes* developments in streamlining procedures for publishing the reports of the Scientific Committee electronically on its official website and as sales publications, and calls upon the secretariat to continue both to monitor the timely publication of those reports and to strive to publish them within the same calendar year as their approval;

---

<sup>3</sup> Ibid., chap. II, sect. C.

<sup>4</sup> Ibid., chap. III.

13. *Invites* the Scientific Committee to continue its consultations with scientists and experts from interested Member States in the process of preparing its future scientific reports, and requests the secretariat to continue to facilitate such consultations;

14. *Welcomes*, in this context, the readiness of Member States to provide the Scientific Committee with relevant information on the levels and effects of ionizing radiation, and invites the Committee to analyse and give due consideration to such information, particularly in the light of its own findings;

15. *Recalls* the strategy of the Scientific Committee to improve data collection, encourages in this regard Member States, the organizations of the United Nations system and non-governmental organizations concerned to provide further relevant data about levels, effects and risks of radiation exposure from various sources, which would greatly help in the preparation of future reports of the Committee to the General Assembly, and encourages the International Atomic Energy Agency, the World Health Organization, the International Labour Organization and other relevant organizations to further collaborate with the secretariat on arrangements for the collection, analysis and dissemination of data on radiation exposures of patients, workers and the public;

16. *Welcomes* the use and ongoing development by the secretariat of an online platform for collecting data on the exposure of patients, workers and the public, and urges Member States to take part in the Scientific Committee's global surveys of radiation exposure and to nominate a national contact person to facilitate coordination of the collection and submission of data on the exposure of patients, workers and the public within the country;

17. *Also welcomes* the Scientific Committee's outreach strategy for the period 2020–2024, in particular the enhancement of the website of the Committee and the publication of information for the general public in all the official languages of the United Nations, continues to encourage that consideration be given to publishing the website in all of those languages, and notes that the dissemination of the Committee's findings and further enhancements to the website would depend on the financial and human resources made available to the secretariat;

18. *Requests* the United Nations Environment Programme to continue, within existing resources, to service the Scientific Committee and to disseminate its findings to Member States, the scientific community and the public and to ensure that the administrative measures in place are appropriate, including clear roles and responsibilities of the various actors, so that the secretariat is able to adequately and efficiently service the Committee in a predictable and sustainable manner and effectively facilitate the use of the invaluable expertise offered to the Committee by its members in order that the Committee may discharge the responsibilities and mandate entrusted to it by the General Assembly;

19. *Welcomes* the appointment of a new Secretary of the Scientific Committee by the United Nations Environment Programme, and urges the United Nations Environment Programme to ensure that future recruitment processes are conducted in an efficient, effective, timely and transparent manner;

20. *Also welcomes* the establishment of the post of Deputy Secretary, which replaces the previous post of Scientific Officer, allows for the deputization of the Deputy Secretary as Secretary as appropriate and assists in the avoidance of disruptions in staffing;

21. *Requests* the Secretary-General to strengthen support for the Scientific Committee within existing resources, particularly with regard to the increase of

operational costs in the case of a further increase in membership, and to report to the General Assembly at its seventy-fifth session on these issues;

22. *Encourages* Member States in a position to do so to make voluntary contributions to the general trust fund established by the Executive Director of the United Nations Environment Programme and also to make contributions in kind, in order to support the work of the Scientific Committee, and the dissemination of its findings, in a sustainable manner;

23. *Invites* Algeria, Iran (Islamic Republic of), Norway and the United Arab Emirates to designate one scientist to attend the sixty-seventh session of the Scientific Committee as an observer, pursuant to paragraph 19 of General Assembly resolution [72/76](#) of 7 December 2017 and to the procedures referred to in paragraph 21 of Assembly resolution [73/261](#) of 22 December 2018;

24. *Recalls* the procedure for the possible further increases in membership of the Scientific Committee as adopted in paragraph 21 of General Assembly resolution [73/261](#), pursuant to paragraph 19 of Assembly resolution [66/70](#) of 9 December 2011.

*47th plenary meeting  
13 December 2019*
